Track Light

## Valman T

Track Light

Vertical illumination is becoming more and more important for architects and lighting designers. It is important for architects because it reveals the feel of the space, and helps the place to become even more inviting. It is important for shop owners because it makes the shop become more visible and appear brighter from outside. In an office it helps to provide better visual comfort.

CODE	F361
Light source	LED
Power (W)	30
luminous flux (lm)	3300
